

PURE MEDICAL-GRADE CBD OIL

About Us

CBD Oil is an increasingly popular alternative to pharmaceutical medications. In order to meet this growing demand, some companies that claim to use domestic organic industrial hemp instead import their hemp from China and Eastern Europe, where industrial hemp is used to cleanse agricultural fields of contaminants. As a result, their CBD oil may itself be contaminated.

Hauser Health Organics will **only** use hemp from organic fields we control in Colorado. Our manufacturer oversees every step of the process, from planting to farming to harvesting to extraction to distillation to formulation, and then packaging. We firmly believe this is the only way to create CBD Oil our customers can trust. Hauser Health Organics only uses industrial hemp that is grown organically and harvested by hand with care and love.

USP Grade CO₂ is used to extract our full spectrum CBD Oil.

At Hauser Health Organics we produce the highest quality organic CBD Oil available for people who share our belief that quality counts.

What are some of the ways Hemp Extract Oil can help you?

- Reduces anxiety
- Assists in digestion through insulin regulation
- Helps the body achieve homeostasis
- Helps to reduce stress response
